

February 8, 2021 – Melius Professional Consultants, Inc (MPC) announced today the award of a services contract with a confidential industrial client who is building a mega-project along the US Gulf Coast. The project targeted for MPC services is the first of three (3) mega-projects being built by this client over the next 5–10 years.

The MPC scope of services is to provide a thorough Activity Analysis assessment at a confidential job site in southern Louisiana. Specifically Melius will be conducting Activity Analysis, Equipment Utilization and Foreman Availability Assessments in a baseline study of both the contractor’s day and night shift operations. Melius brings an experienced team of 12 Project Analysts to execute this study that is planned to start in late March.

Chris Buck, President of MPC, said, “To get an opportunity like this right out of the gate for Melius is a testament to the strong resume of our team. No one in the world is better qualified to help this client than the team at Melius. We look forward to developing this relationship so we can support this client as they take on this and 2 other mega projects in the near future.”

Melius Professional Consultants, Inc. is a privately-held corporation with headquarters in Greenville, NC. Its mission is to help clients around the world implement sustainable improvements into their operations.
